

## APPROVED QI AND QR SUBSTITUTIONS

Additions in Red

**ANTH 220 Principles of Archaeology (3).** Introduction to method and theory in archaeology. An examination of how archaeologists make inferences about past societies, including reconstruction of culture histories; lifeways; ideologies; and social, political, and economic relationships.

**BUSI 100 [071] Financial Accounting (4).** Pre- or corequisite, ECON 101. Role of accounting; basic concepts and methodology; mass data processing; valuation and income determination principles; management and internal control problems; and basic financial statement components.

**GEOG 370 [070] Introduction to Geographic Information (3).** A survey of geographic data sources including maps, photos, digital images, Census information, and others. Emphasis is on appropriate uses, limitations, and skilled interpretation in physical and human geography applications. (Core)

**INLS 200 [040] Retrieving and Analyzing Information (3).** Introduction to and application of the processes that can be used in seeking information, evaluating the quality of the information retrieved, and synthesizing the information into a useful form.

**MASC 310 Our Changing Planet: Science, Social Impacts, Solutions (3).** Permission of the instructor. Restricted to juniors and seniors. An overview of the scientific basis for global warming, current and future impacts on society, options for mitigation and adaptation, and the role of politics and the media.

**MUSC 121 Fundamentals of Music I (3).** Notational and theoretical materials of music, with musicianship skills developed. Intended for the nonmajor who wishes to learn to express musical ideas in clear, correct notational form.

**PHIL 157 Logic and Decision Theory (3).** A broader discussion of practical reasoning, including inductive and deductive logic, which provides a good introduction to decision and game theory that is important for the social sciences, especially economics.

**PHIL 357 Induction, Probability, and Confirmation (3).** Current accounts of evidence and observation, the confirmation of scientific theories, the logic of inductive reasoning, and the metaphysics and epistemology of chance.
