Re: Changes to the course requirements for the Anthropology major

Date: Oct 9, 2015

The Anthropology major requires that students take one course each in Archaeology, Biological Anthropology and Cultural Anthropology. To fill these requirements the students choose from a list of acceptable courses. We would like to add two courses to the lists of approved courses for these requirements. Specifically we would like to add:

ANTH 149 *Great Discoveries in Archaeology* (put on the books Fall 2015) to the list of approved archaeology courses

ANTH 217 *Human Biology in Comparative Perspective* (course proposal submitted, pending approval for Fall 2016) to the list of approved biological anthropology courses

We have attached edited text for the bulletin that shows these changes (additions are in bold and highlighted).

Anthropology Major, B.A.
