Curriculum Revision Request: Neuroscience Minor

September 25, 2015

Dear Administrative Boards:

We write to request that PSYC 220 (Biological Psychology), 420 (Functional Neuroanatomy), PSYC 424 (Neural Connections: Hands on Experience), and BMME 445 (Systems Neuroscience) be added to the approved list of elective courses for the Neuroscience minor. Because of similarity in content between PSYC 220 and BMME 445, students may receive elective credit for one of these courses, but not both.

Appended to this letter is a copy of text for the Undergraduate Bulletin with the suggested changes tracked. Copies of syllabi for the four courses are also attached. Please note that PSYC 420 and PSYC 424 are being submitted as new course proposals. The other two courses (PSYC 220 and BMME 445) are already approved and offered in the College.

Thank you very much.

Sincerely,

Kelly Giovanello, Ph.D.
Director, Neuroscience Minor
Associate Professor, Psychology and Neuroscience

Donald T. Lysle, Ph.D.
Kenan Distinguished Professor
Chair, Department of Psychology and Neuroscience

Beth Kurtz-Costes, Ph.D.
Director of Undergraduate Studies
Professor, Psychology and Neuroscience
