Office of Undergraduate Education
3010 Steele, CB #3504,
Carolina Campus

Dear Nick,

With this letter, the Department of Computer Science requests approval of the following revision to its current degree requirements for the Bachelor of Science in Computer Science. The change is a simple expansion of the list of acceptable second science courses. This change simply adds two additional courses, PHYS 351 and 352 (Electronics I and II respectively), that we believe can be good options for our majors.

Under the current additional requirements (as described in the Undergraduate Bulletin), the fourth bullet describing the science option reads:

PHYS 116 or PHYS 118 and a second science course chosen from BIOL 101/101L, 202, or 205; CHEM 101/101L, 102/102L; GEOL 101/101L; ASTR 101/101L; PHYS 117 or 119.

The proposed change will expand this list to:

PHYS 116 or PHYS 118 and a second science course chosen from BIOL 101/101L, 202, or 205; CHEM 101/101L, 102/102L; GEOL 101/101L; ASTR 101/101L; PHYS 117, 119, 351 or 352.

Your assistance in processing this request is most appreciated.

Sincerely

Kevin Jeffay
Gillian Cell Professor and Chair
